

## Celebrates Grand Opening of Model Home Center

Schumacher Homes has taken its one-stop-shopping Design Center a giant step forward with a gorgeous model home on Burnt Poplar Road in Greensboro.

"Up until now we have displayed the quality and unique features of our homes through the use of a Design Center in this market," says Paul Schumacher, CEO and founder of Schumacher Homes. "We just felt it was important to give our customers something they could 'touch and feel' to actually illustrate the quality that goes into every Schumacher home."

Want to see what a coffered ceiling looks like? Check out the Great Room in the model home. How about granite countertops with stainless steel appliances? View the model's Open Kitchen.

a large screened porch? These are just a few of the examples new homebuyers can consider before a final decision is made.

Schumacher Homes is America's largest on-your-lot custom homebuilder. Since 1992, Schumacher has crafted more than 7000 custom homes, each one customized to meet the lifestyle and needs of the homeowner. As the largest custom home builder in America, building in 14 states, its purchasing power allows the company to buy superior products and include them as standard features at lower prices to the homeowner.

As an on- your-lot custom builder, they build where you want to live. With hundreds of plans

to choose from, the builder is confident you will find a plan that is right for you. But remember, this is just a starting point - if you want to make a few changes or a lot of changes, that's okay. From adding a sunroom to changing the angle of your attached garage and anything in between, Schumacher Homes can make your home as unique and individual as you desire.

"As a truly custom homebuilder, we are able to customize your plan to fit your needs," says Joe Yedlovsky, General Manager. "In fact, we are the first builder in the country to offer Real Time Design®, a system that allows you to see your changes come to life right before your eyes."

Schumacher Homes is also the first homebuilder in the country to use Smart Board technology in their custom home design. It has also developed the Best Value Price Quote™, a state-of-the-art price quote program that presents hundreds of standard and optional features, showing

all pricing, descriptions, and images of the selections made. "We have spent 19 years building a stress-free building process that is streamlined and incredibly efficient." Schumacher homes range from

884 square feet to more than 8000 square feet, priced from the \$80's to more than \$500,000. Choose from multiple styles, including one-story, two-story, American Tradition, Craftsman, French Country, Coastal and Mountain-Cabin styles.

Room above the garage. Other custom features include a stone fireplace in the Great Room, a covered porch for time outdoors and a luxurious bath with a tile shower.

The custom home now on display at 6349 Burnt Poplar Road, off I-40 is the newest of more than 30 model homes at various locations. This is the first to be developed specifically for the North Carolina market, according to Paul Schumacher. This new location includes a Design Center to provide one-stop shopping convenience with everything from countertops, to flooring and light fixtures and everything in between. No more running all over town to complete choices – it's all in one location.

**Greensboro's Newest Model** Schumacher Homes' newest model home, the Beverly II B, is a spacious 2428 square foot one-story home with an owner's retreat, two additional bedrooms, 2.5 baths and an optional Bonus
